

## 4RIDE GEAR SHIFT PEDAL SET, INSTALLATION INSTRUCTIONS

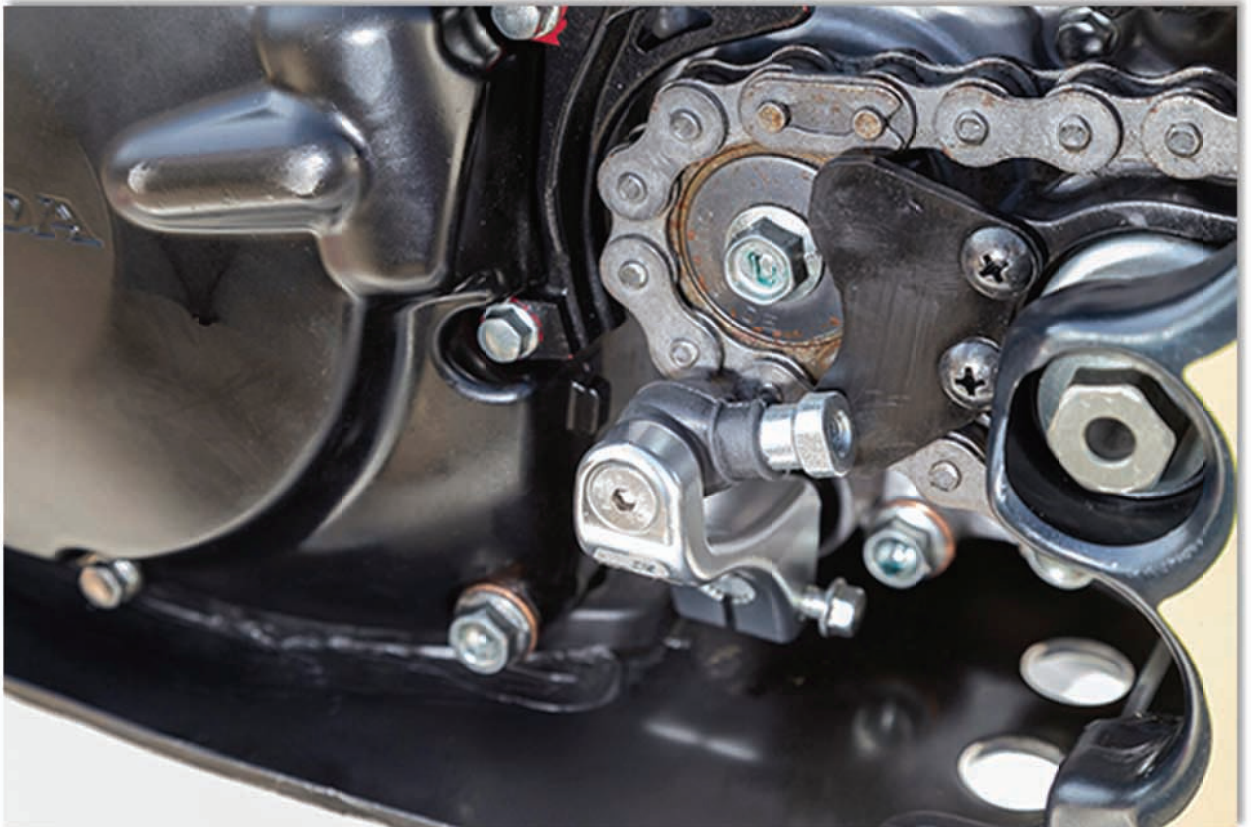

1. – Unmount the shift lever loosening the bolt fastener.

## 4RIDE GEAR SHIFT PEDAL SET, INSTALLATION INSTRUCTIONS

2. – Assemble the new lever, in the axis of change, fixing with the same screw that was in the previous lever, positioning it in the striate of the shaft.

#### 4RIDE GEAR SHIFT PEDAL SET, INSTALLATION INSTRUCTIONS

3. – Unmount the footrest fastener, upper screw.

#### 4RIDE GEAR SHIFT PEDAL SET, INSTALLATION INSTRUCTIONS

4. - Mount the new screw on fixing and tightening it.

## 4RIDE GEAR SHIFT PEDAL SET, INSTALLATION INSTRUCTIONS

5. - Adjust the rod to the spherical rod-end bearing, on the side of the lever, approximately 1 mm thread, and leaving the female fastening loose completely to the opposite side of the spherical rod-end bearing.

## 4RIDE GEAR SHIFT PEDAL SET, INSTALLATION INSTRUCTIONS

6. - Do the same on the spherical rod-end bearing on the side of the shift lever, and adjust the level of the lever, screwing the threaded rod.

## 4RIDE GEAR SHIFT PEDAL SET, INSTALLATION INSTRUCTIONS

7. - Tighten the nuts on the spherical rod-end bearing of both sides.

## 4RIDE GEAR SHIFT PEDAL SET, INSTALLATION INSTRUCTIONS

8. - Done, the gear shift pedal set is finished!
